

WEB TRACKING

www.rbsystems.com

Based on a User ID and Password, customers and trading partners access the Web Tracking System where it provides an expanded view of shipment activity including on line customs forms in PDF format.

The Web Tracking System (WTS) Allows viewing status of the shipments by tuck number, customer reference on any particular date and allows viewing ABI Responses, CF 3461, CF 7533, CF 7501, Brokers Invoice, FDA release, and more.

With our Web Tracking systems you can provide importers/ Exporters, Mexican Brokers, and freight company with Internet access to all the details concerning their information.

- ABI Status
- Cargo and OGA Status
- Intensive examination status
- Duties, Fees, and due dates
- Line item information
- Bill of lading and container information
- Additional notes to the importer
- Liquidations
- Selectivity and Entry summary information
- Self Print Forms
- Warehouse inventory
- Export information
- In Bond/ QP information
- Release Processing Results
- ABI Messages
- Bill of lading information
